

Win Shares 2005 Errata

The Win Shares section has two sets of omissions.

First, there are 87 players who did not play in 2003, but did play before 2003. For these players we only show their 2004 Win Shares in the book.

Second, we added 22 players to the Career Register section. Two are Japanese players we expect will play MLB in 2005. The other twenty are MLB players who did not play in 2004, that we expect will return in 2005. These twenty were totally omitted in the Win Shares section.

We apologize for the omissions. The following chart shows these 107 players that were either omitted or were missing their earlier seasons.
